And there's more to come

Our aim is to increase our social media following from 2,000 (current) to 20,000 in one year.

Also, a new section called **CONTRACTS** will be launched in 2023 (Q4) where information about new and forthcoming hospitality projects will be posted. This will include projects under construction or at advanced planning with news about the operators, the developers, the architects and appointed designers.
